## Interests

- Football.
- Listen to music.

## Skills

- **Soft Skills:**
  - Quick adaptability.
  - Proactive learner.
  - Teamwork.
- **Technical Skills:**
  - Basic C++ programming.
  - ReactJS + Tailwind CSS (UI development).
  - MySQL (database design & queries).
  - Basic Git & GitHub.

## Education

- Tran Quang Dieu High School (Sep/2021 - Jul/2024).
- FPT University in Ho Chi Minh City (Present).
- FPT Aptech International Programmer Training System (Present).

# Lam Hoang An

SE201018

Dear **F-Code** Club Board,

My name is An, and I am currently a student in the K20 cohort at FPT University, majoring in Software Engineering. With a passion for programming, I am eager to join the F-Code Club to deepen my knowledge and gain practical experience by learning and working on real-world projects within the club. I sincerely hope to be given the chance to join and dedicate myself fully to the club using my abilities.

## Awards

### ○ 2022 - 2023

- Second Prize in Informatics, School-Level Academic Excellence Competition.

### ○ 2023 - 2024

- Second Prize in Informatics, School-Level Academic Excellence Competition.
- Third Prize in Informatics, Provincial-Level Excellent Student Competition.

## Projects

### ○ 2025

- Completed the user authentication feature using JSON Web Token (JWT) technology and the payment feature for the Semester 02 project on the MAPLEARN EDU online learning platform at FPT Aptech (Oct/2025) link project: [bit.ly/MapLearn](https://bit.ly/MapLearn).
- Completed the UI pages for About Us, Wishlist, Awards, Shipping & Returns Policy, FAQ, and Recently Products for the Semester 01 project, Maverick Dresses (fashion shop) at FPT Aptech (Feb/2025) link project: [bit.ly/MaverickDresses](https://bit.ly/MaverickDresses).

## Summary

### ○ Short-Term Goals (6-12 months):

- Apply to join the F-Code Club.
- Improve my foundational skills in Web Development (ReactJS, NodeJS, and database design).
- Develop stronger teamwork abilities, Git workflow proficiency, and self-learning discipline.

### ○ Long-Term Goals (1-3 years):

- Contribute to improving products, enhancing technical quality, or supporting junior members.
- Become a Software Engineer capable of building full-stack applications from frontend to backend.
- Develop 3-5 high-quality projects involving AI, advanced backend, or real-world web applications.
