OBJECTION

Aspiring developer with the ability to apply C, HTML, CSS and Java in practical contexts. Actively honing skills through competitive programming like Code Tour 2025. Dedicated to contributing to the F-Code community and determined to leverage algorithmic expertise to achieve high results in future technical contests.

EDUCATION

2024 - 2028

FPT University | Information Technology

Education FPT University Major: Software Engineering

ACADEMIC PROJECTS

2025 - 2025

Book Management System | C

- Developed a console-based application to manage Books records.
- Applied key programming concepts: Pointers, Arrays, and File I/O for data storage.

2025 - 2025

Todolist | HTML, CSS

- Structured layout using standard HTML and styled with CSS.
- Demo:<https://todolist-seven-ashy.vercel.app/>

INVOLVEMENT

Oct 2025 - Oct 2025

Presenter | Autonomous Vehicles & Robotics Seminar

- Conducted research on technical barriers and engineering challenges of self-driving vehicles.
- Presented findings to the class, demonstrating logical thinking and public speaking skills.

Aug 2025 - Aug 2025

Contestant | Code Tour 2025

- Participated in algorithmic challenges to refine coding logic and problem-solving skills in C.

HONORS & AWARDS

2025

Champion | R.ODE Battle 2025 (Frontend Category)

SKILL

- **Programming languages:** C, Java.
- **Tools:** VS Code, Git/GitHub.
- **Web Development:** HTML5, CSS3, JavaScript (Basic).
- Public Speaking & Presentation

CERTIFICATIONS

2025 IELTS Certifications – Band 5.0

2025 Coursera – AI For Everyone

HOBBIES

- **Game Development:** Interested in game logic, mechanics, and esports.
- Eager to explore Japanese language and culture
- Enjoy Lo-fi & Instrumental beats to enhance concentration while coding.
