EDUCATION

2021 - 2024
QUOC HOC QUY NHON

2025
FPT UNIVERSITY

SKILLS

SOFT SKILLS

- Project Management
- Teamwork
- Time Management
- Effective Communication
- Critical Thinking

TECHNICAL SKILLS

- Programming Languages: C (Basic), C++ (Basic), Java Core (OOP Fundamentals), HTML/CSS.

LANGUAGES

- English: IELTS 6.5

PROFILE

As a second-year Software Engineering student driven by a strong passion for technology, I have actively acted to equip myself with foundational programming knowledge.

However, I realize that self-study can not provide the broader perspective of the tech world I strive for. Therefore, I aspire to join the F-Code family to learn from experienced seniors and like-minded peers, allowing me to satisfy my deep passion for exploring technology.

EXPERIENCE

QUOC HOC QUY NHON   2021 - 2024

- Member of the Informatics Olympiad Team (HSG Tin học).
- Participated in the FPT Robotics Programming Competition (Quy Nhon, 2023): Analyzed challenges and devised strategies to design and implement optimal algorithms for robotic navigation.

GOALS

FPT UNIVERSITY   2025 - 2028

- Active Learner at F-Code: Immerse in the technical community to absorb practical expertise, learn from seniors, and gain hands-on experience through crew projects.
- Technical Mastery: Apply DSA and OOP principles to build scalable projects using Java (Spring Boot) or C# (.NET) .
- System Architecture & DevOps: Master RESTful APIs, Microservices, and Database Optimization.
- Continuous Growth: Actively compete in hackathons and update skills.

OJT & FUTURE

- Production-Ready Engineer: Excel in the OJT semester by delivering maintainable, high-quality code in a real-world environment.
- Alumnus Mentor: Return to support and guide the next generation of the F-Code community.
