ABOUT ME

I am a dedicated student with a solid technical foundation built during three years in a specialized Computer Science class. I possess practical skills in C++, Python, and basic AI algorithms. Beyond coding, my experience as a medal-winning athlete in volleyball and football has equipped me with strong discipline and teamwork abilities. I am eager to join F-Code to further develop my programming expertise and contribute my energy to the club's success.

ACTIVITIES & ACHIEVEMENTS

SCHOOL SPORTS TEAM

Athlete   2022-2025

- Won multiple medals and personal titles in Volleyball and Football tournaments.
- Demonstrated high discipline and strong teamwork skills under pressure.
- Actively participated in Esports activities.

VOLUNTEER & SOCIAL ACTIVITIES

Organizing   2024
Committee Member

- Participated in the "Mid-Autumn Paper Lantern" fundraising campaign.
- Successfully raised 10,000,000 VND to support people in difficult circumstances.
- Developed empathy and community responsibility.

SCHOOL TEAM SELECTION (PROVINCIAL & NATIONAL LEVELS)

Competitive   2022-2024
Programming Candidate

- Qualified for the rigorous school-level selection round for the Provincial and National Student Olympiad in Informatics.
- Applied advanced C++ algorithms to solve complex problems under strict time constraints.
- Honed logical thinking and perseverance through intensive training sessions.
