OBJECTIVE

I aim to build my skills in web development, starting with solid front-end knowledge and then moving on to back-end development.

EDUCATION

Tra Vinh Laboratory School
Gifted class in Mathematics
2021 - 2024

FPT University
Software Engineering Student
2024 - now

SKILLS

Hard skills
- Programming languages: C, Java, Js
- Front-end: HTML, CSS
- Version control: Git

Sort skills
- Presentation
- Teamwork
- Problem-solving
- Time-management
- Self-learning

PERSONAL PROJECT

TO-DO LIST

- A task-management web app built with HTML, CSS, and JavaScript.
- Features include adding, editing, deleting tasks, marking tasks as completed, and tracking progress.

PERSONAL SUMMARY

A student learning Software Engineering at FPT University.

I have an academic foundation through coursework and university activities. I can engage in club events, share knowlegde and learning materials, and promote awareness among potential members.

EXPERIENCE

Jul 2025 - Nov 2025
Robotics Competition Coach & Mentor

- Worked as a robotics coach for three elementary teams competing in the World Robot Contest; guided students in competition strategy, assisted in design planning, and taught programming with RoboCode using VietRobot kits.

- Led the team to qualify at the Binh Duong regional round and achieved First Place in the World Robot Contest.

Mar 2025 - May 2025
Scratch Instructor for Elementary Students

- Worked as a Scratch tutor for a class of 6 students, responsible for creating study materials and guiding them through lessons.

- Enabled students to understand fundamental block-based programming concepts and complete their own mini-projects.

2021 - 2024
Secretary of the Ho Chi Minh Communist Youth Union

- Managed a Youth Union chapter of 28 members, organized school-wide activities and community projects.
