EDUCATION

2024 - Now
FPT UNIVERSITY
- Full-ride scholarship for Software Engineering major

2021 - 2024

NGUYEN TRAI HIGH SHOOL

- Informatics grade: above 9.0/10.0 for three years

SKILLS

1. **Hard Skill** : HTML, CSS, C, Java,SQL
2. **Soft Skills**: Critical Thinking, Self-Learning, Teamwork ethic, ready to contribute actively to club projects.
3. **Languages:** English, Chinese (Mandarin), Japanese

PROFILE

As a Software Engineering student, I'm actively strengthening my technical foundation and expanding my programming skills. I hope to join the club to work on real projects, learn from experienced members, and find teammates for contests, hackathons, and academic initiatives. I believe Fcode will help me grow—and allow me to contribute my energy and passion for technology.

OBJECTIVE

Dec 2025 – Apr 2026

- Join F-Code with a strong willingness to learn, contribute, and actively integrate into the community.
- Strengthen existing programming skills and develop proficiency in new languages, tools, and technical competencies.

May 2026 – Dec 2026

- Continue improving technical abilities through hands-on projects within the club.
- Participate in hackathons, workshops, programming contests, and technical events inside and outside the university.
- Build a solid personal portfolio with high-quality projects that apply modern technologies, while enhancing teamwork, system design, and problem-solving skills.

2027 And Beyond

- Complete OJT Semester with strong performance and aim to be retained by the company.
- Continue contributing to F-Code after graduation by supporting and mentoring future members.
